

# **Default Lifted from Mahenge Special Mining Licence**

**Tanzanian graphite developer Black Rock Mining Limited** (ASX: **BKT**) (**Black Rock, BKT** or the **Company**) is pleased to advise that the Mining Commission of Tanzania (**Mining Commission**) has provided formal confirmation that a notice of default (**Notice**) issued in relation to the Special Mining Licence (**SML**) granted to the Company's Tanzanian subsidiary, Faru Graphite Corporation Limited (**Faru**) (Black Rock 84%), in relation to the Mahenge Graphite Project in Tanzania (**Mahenge**, the **Project**), as referred to in the Company's trading halt request of 14 April 2025, has been lifted.

The Company understands that the Notice was one of ninety-five breach notices issued by the Mining Commission to large and medium-scale licence holders. Upon receipt of the Notice, the Company promptly submitted a formal written response, along with supporting documentation, to the Mining Commission to address the Notice. After market close on 9 May 2025, the Company received a letter from the Mining Commission confirming that the default had been lifted.

In relation to the SML, the Company confirms that there is no change to the terms of the SML and that there are no impediments to operations.

The Company welcomes the confirmation of the lifting of the default in relation to the SML and looks forward to working with the Government of the United Republic of Tanzania to develop the world class Mahenge Graphite Project.

In relation to the Company's suspension pursuant to Listing Rule 17.3, as announced 22 April 2025, the Company confirms that it is in compliance with Listing Rule 3.1, and the Listing Rules generally, and that the Company is not aware of any reason why the suspension should not be lifted.

# Forward looking statements disclaimer

This announcement contains certain "forward-looking statements" and comments about future matters. Forward-looking statements can generally be identified by the use of forward-looking words such as, "expect", "anticipate", "likely", "intend", "should", "estimate", "target", "outlook", and other similar expressions and include, but are not limited to, the timing, outcome and effects of the financing process. Indications of, and guidance or outlook on, future earnings or financial position or performance are also forward-looking statements. You are cautioned not to place undue reliance on forward-looking statements. Any such statements, opinions and estimates in this release speak only as of the date hereof, are preliminary views and are based on assumptions and contingencies subject to change without notice. Forward-looking statements are provided as a general guide only. There can be no assurance that actual outcomes will not differ materially from these forward-looking statements. Any such forward looking statement also inherently involves known and unknown risks, uncertainties and other factors and may involve significant elements of subjective judgement and assumptions that may cause actual results, performance and achievements to differ. Except as required by law the Company undertakes no obligation to finalise, check, supplement, revise or update forward-looking statements in the future, regardless of whether new information, future events or results or other factors affect the information contained in this announcement.

#### **About Black Rock**

Black Rock Mining Limited is an Australian based company listed on the Australian Securities Exchange (ASX: **BKT**). The Company has an 84% interest in the world-class Mahenge Graphite Project (**Mahenge**) located in Tanzania. In July 2019 (ASX announcement 25 July 2019), the Company released an enhanced Definitive Feasibility Study (**eDFS**) for Mahenge. Black Rock has obtained all Environmental approvals, Mining Licences and its Resettlement Action Plan.

In June 2020 Black Rock announced a Strategic Alliance with POSCO for the development of Mahenge, including an equity investment of US\$7.5m, followed by an offtake agreement for the fines for Module 1 (32% of volume) plus a US\$10m prepayment facility. POSCO has also signed an MOU for 6ktpa of large flake graphite (7% of volume) increasing POSCO's offtake interest to almost 40% of Module 1. In September 2024, POSCO approved its US\$40m equity investment in Black Rock and secured the fines offtake for Mahenge Module 2.

In December 2021, Black Rock signed a Framework Agreement with the Government of Tanzania confirming a 16% Free Carried Interest shareholding, agreed to consolidate its Mining Licenses into a Special Mining Licence (**SML**). The SML for Mahenge was issued in September 2022.

Black Rock completed a FEED process (Front End Engineering Design) in September 2022, re-estimating the capital and operating costs for Mahenge as part of the eDFS Update<sup>1</sup>. The eDFS Update confirmed Mahenge as a robust project with attractive returns. Key Project metrics comprise:

- Tier 1 Scale: Mahenge has a resource of over 200mt and the 2<sup>nd</sup> largest graphite reserve globally
- Modular development approach: Initial Capex of US\$231m<sup>2</sup>;
- 1st quartile on the global cost curve: Adjusted C1 Cash cost of US\$359/t3
- Attractive projected returns: Unlevered IRR post-tax, post free carry of 36%<sup>4</sup>
- Substantial upside potential: NPV<sub>10 nominal</sub> post-tax, post free carry of A\$2.1bn or US\$1.4bn<sup>4</sup>

The Company is now construction-ready subject to securing the balance of funding. On 16 September 2024, Black Rock announced that it had signed the Facilities Agreement for US\$179m in facilities with DBSA, IDC and CRDB.

The estimated Ore Reserves and Mineral Resources underpinning the production target has been prepared by competent persons in accordance with the requirements in Appendix 5A (JORC Code).

JORC Compliant Mineral Resource Estimate and Ore Reserve <sup>5</sup>			
Ore Reserves	Tonnes (Mt)	Grade (% TGC)	Contained Graphite (Mt)
- Proven	0	0.0	0.0
- Probable	70.5	8.5	6.0
Total Ore Reserves	70.5	8.5	6.0
Mineral Resources			
- Measured	31.8	8.6	2.7
- Indicated	84.6	7.8	6.6
Total M&I	116.4	8.0	9.3
- Inferred	96.7	7.4	7.2
Total M, I&I	213.1	7.8	16.6

Location of Black Rock's Mahenge Graphite Project in Tanzania

For further information on Black Rock Mining Ltd, please visit www.blackrockmining.com.au

1 Refer market announcement dated 10 October 2022: Black Rock Completes Front End Engineering Design, Reconfirming Mahenge as Tier 1 scale project with compelling projected returns. The Company confirms that all the material assumptions underpinning the production target, or forecast financial information derived from the production target, in the original market announcement continue to apply and have not materially changed.

2 Includes US\$182m for Module 1 capex + US\$33m for power line + US\$16m for early works and other costs (not included in the eDFS Update). Power line capex plus interest to be recouped over the first 4 years of the project and power costs expected to be ~US8c/kWh. Forecast Capex is classified as a Class 2 estimate with accuracy of ±10% as defined by AACE. 3 Adjusted for larger proportion of higher value large flake compared to global peers. Access to low-cost, hydro-dominated grid power is one of BKT's key competitive advantages.
